SUMMARY

Information and Communication Engineering student with practical experience in running IT operations and managing server infrastructure. I excel at translating complex technical tasks into clear, everyday business solutions. With a strong background in leading project teams, working directly with vendors, and using data to improve daily operations, I am looking for opportunities where I can combine my technical skills with my organizational sense to get things done.

TECHNICAL SKILLS

- **IT Operations & Data:** Google Workspace (Docs, Sheets, Slides), Power BI, Microsoft Office, SQL
- **System Administration:** Ubuntu Server, Plesk, Apache, VirtualBox, Windows, Hardware Procurement, Git/GitHub
- **Development & Frameworks:** React, Laravel, Flutter, Tailwind CSS
- **Programming Languages:** Python, JavaScript, Dart, C/C++, HTML/CSS

EDUCATION

B.Sc. in Information and Communication Engineering (ICE) Jul 2022 to July 2026
Bangladesh University of Professionals (BUP) CGPA: 3.55 (Up to 7th sem)
• **Thesis:** Optimizing Secondary Reliability Factors to Reduce Reliability Gaps in Tier-III Data Centers

Higher Secondary Certificate (HSC), Mirpur Cantonment Public School & College - GPA 5.00 2021
Secondary School Certificate (SSC), Monipur High School & College - GPA 5.00 2019

EXPERIENCE

IT-Intern May 2026 to Present
Startup Bangladesh Limited Dhaka, Bangladesh
• Managed enterprise IT operations, maintaining Linux server infrastructure and overseeing daily technical support and hardware procurement workflows.
• Coordinated directly with external vendors for the deployment of the corporate website, ensuring alignment with organizational requirements and timelines.
• Developed internal operational applications and generated data-driven insights using Power BI, while also supporting technical reviews and development for national platforms (NESP, IMM) to drive executive decision-making.

Founder Jan 2021 to Jun 2023
EPNFRN Technologies Dhaka, Bangladesh
• Founded a zero-capital social commerce operation, managing end-to-end supply chain logistics, vendor relations, and order fulfillment to generate sustained profit.

Content Typist Apr 2022 to Sep 2022
10 Minute School Dhaka, Bangladesh
• Executed formatting and quality assurance for educational presentation slides intended for mass distribution, ensuring strict layout and data accuracy.

LEADERSHIP & EXTRACURRICULARS

- **Senior Vice President, BUP Robotics Club:** Directed the club's first national robotics competition and represented the university at regional tournaments.
- **Web Administrator, BICE-2022 Academic Portal:** Built and maintained the academic portal on Google Sites for four years, centralizing resources for students.
- **Media Coordinator, IEEE BUP Student Branch:** Coordinated media for major events including IEEE Branch Fest 2023 and the 2nd ICICT4SD, maintaining all digital archives.

KEY PROJECTS

Ki Oushodh
Offline Medicine Identifier, Flutter
• Engineered an offline, accessibility-focused mobile application to assist elderly and low-literacy users.
• Integrated and managed a comprehensive database of 13,929 medicines, delivering automated audio results to solve a critical healthcare information gap.

BUP Bus Tracker
Live Transit App, Flutter & Firebase
• Co-developed a real-time logistics tracking system utilizing Flutter and Firebase to optimize campus transportation.
• Deployed a dual-application architecture that is utilized daily by the university's commuters.
